

ELECTRICAL SAFETY RESCUE KIT

PENTA HAND CARRYING CASE

ADVANTAGES

AN ELECTRICAL SAFETY KIT FOR FIELD OPERATIONS

- **COMPACT:** For easier storage in vehicles, the case is 600 x 400 x 310 mm size.
- **MOBILITY:** Exclusive wheel system and handle to facilitate access to the intervention area.
- **TOUGH:** The materials and the manufacturing process have been chosen to give the case optimum service life.
- **HIGH VISIBILITY:** Retro reflective strips are used for greater visibility.
- **OPTIMISED STORAGE:** The case packs a lot of equipment into a small space.

USE

The electrical safety kit allows to assist people in presence of electrical hazards, up to 25 kV network with model.

VES25 or up to 36 kV network with model VES36.

This kit is particularly suitable for the following situations:

- Road accidents
- Electric and hybrid cars
- Cable removal
- Work on photovoltaic panels
- Work on electrified railways
- Industry

TECHNICAL SPECIFICATIONS

- **INSULATING STOOL :** 25 000V or 36 000V models available
- **INSULATING GLOVES :** GLB3-36-10 (class 3) for model VES25 or GLB4-41-10 (class 4) for model VES36
- **INSULATING BOOTS TB19 :** protection against step voltage (voltage gradient in the ground).
- **INSULATING STICK PPOLVES, EQUIPPED WITH A HOOK CSVES :** telescopic stick with pentagonal shape for a perfect grip
- **VOLTAGE DETECTOR TDPESEC :** detects all voltages of 127 V AC and above (does not detect DC voltages)
- **CABLE CUTTER CCIVES :** Insulated 36 000 V cable cutter
- **TALC SHAKER TS10T :** for easier donning of gloves
- **Fabric case for gloves TS10 :** Mechanical and UV protection
- **Adhesive marker tape S174JN :** for marking off an area, preventing a disconnect switch from being reset, etc
- **Instruction for use VESNOT :** in diagram form for quick reading and guidance

Product Reference	Max Operating Voltage	Désignation	Particularité
VES25	25.000 V	Valise électrosecours 25 kV	25 kV stool and gloves class 3
VES26	36.000 V	Valise électrosecours 36 kV	36 kV stool and gloves class 4

ELECTRICAL SAFETY RESCUE KIT

PENTA WALL MOUNTED RESCUE KIT - LOW VOLTAGE

USE

Quick access wall-mounted rescue kit for intervention to rescue a victim in the event of an incident on or near a low voltage electrical installation (also available in 25 kV and 36 kV versions).

Indoor or outdoor use.

The storage unit can be sold empty, with or without tray to form a shelf, without components to accommodate other products and protect them from external aggressions.

An optional add-on unit is available to increase the storage space, which can be modulated thanks to the optional removable trays. It can in particular store a set of MV fuses horizontally.

ADVANTAGES

- Rapid response to a victim facing an electrical accident.
- Transparent, UV-resistant door makes it easy to see all components from the outside.
- Storage and protection of components from dust, sea spray and splashes for outdoor use, weatherproof (IP54).
- Lockable case to prevent the borrowing of material.
- Great modularity, and possibility of adaptation according to needs (optional additional unit and possibility to organize the storage space with removable trays)

Product Reference

Désignation

VES25

Panoplie de sauvetage murale BT complète avec équipement et EPI - version française

VES26

Panoplie de sauvetage murale BT complète avec équipement et EPI - version anglaise

TECHNICAL SPECIFICATIONS

- Weatherproof plastic case, resistant to weather, dust, splashes and marine spray (IP54).
- UV-resistant transparent door with locking handle that can accommodate a seal or padlock (max. Ø 4.8 mm shackle).
- Equipment mounting insert optimized for efficient storage and quick response.
- Wall mounting kit included.

Contents of the complete PS2- wall-mounted rescue kit :

- 1 pair of latex insulating gloves class 0 size 10 (GLBO-36-10)
- 1 protective bag for insulating gloves (TS10)
- 1 bottle of talcum powder (TS10T)
- 1 non-contact voltage detector (UNITAGUFE)
- 1 telescopic insulating stick (PPOLF2/011APV)
- 1 rescue hook for insulating pole (CSVES)
- 1 insulating mat size 0,6x1 m (TTCL0 0,6X1M)
- 1 boundary tape (S174JN)
- 1 set of 2 adhesive posters on the door : identification of the model and instructions in case of facing an electrical accident

Accessories:

- Small adaptable storage unit, allowing in particular to store a set of MV fuses horizontally
- Removable trays for organizing storage space .
